# CONTENTS OF VOLUME 126

ABEYARATNE, R. & J. K. KNOWLES, Dynamics of Propagating Phase Boundaries: Thermoelastic Solids with Heat Conduction . . . . . 203

AMANN, H., Stability of the Rest State of a Viscous Incompressible Fluid . . . . . 231

ASHWIN, P. & I. MELBOURNE, Symmetry Groups of Attractors . . . . . 59

BAUMAN, P. & D. PHILLIPS, Univalent Minimizers of Polyconvex Functionals in Two Dimensions . . . . . 161

BREZIS, H., F. MERLE & T. RIVIÉRE, Quantization Effects for $-\Delta u = u(1 - |u|^2)$ in $\mathbb{R}$ . . . . . 35

CHENG, C.-W. & V. J. MIZEL, On the Lavrentiev Phenomenon for Autonomous Second-Order Integrands . . . . . 21

COLEMAN, B. D. & PO-HSIEN LAI, Waves of Discontinuity and Sinusoidal Waves in the Theory of Second Sound in Solids . . . . . 1

GURTIN, M. E., The Characterization of Configurational Forces . . . . . 387

HEIBIG, A., Existence and Uniqueness of Solutions for some Hyperbolic Systems of Conservation Laws . . . . . 79

HEIDRICH, A., Global Weak Solutions to Initial-Boundary-Value Problems for the One-dimensional Quasilinear Wave Equation with Large Data . . . . . 333

KNOWLES, J. K., see ABEYARATNE, R. . . . . 203

LAUTERBACH, R. & S. MAIER, Symmetry-Breaking at Non-Positive Solutions of Semilinear Elliptic Equations . . . . . 299

MAIER, S., see LAUTERBACH, R. . . . . 299

MELBOURNE, I., see ASHWIN, P. . . . . 59

MERLE, F., see BREZIS, H. . . . . 35

MIZEL, V. J., see CHENG, C.-W. . . . . 21

NOVOTNY, A. & M. PADULA, $L^p$-Approach to Steady Flows of Viscous Compressible Fluids in Exterior Domains . . . . . 243

PADULA, M., see NOVOTNÝ, A. . . . . 243

PHILLIPS, D., see BAUMAN, P. . . . . 161

PO-HSIEN LAI, see COLEMAN, B. D. . . . . 1

REIN, G. & A. D. RENDALL, Global Existence of Classical Solutions to the Vlasov-Poisson System in a Three-Dimensional, Cosmological Setting . . . . . 183

RENDALL, A. D., see REIN, G. . . . . 183

RIVIÈRE, T., see BREZIS, H. . . . . 35

RUF, B. & P. N. SRIKANTH, On Periodic Motions of Lattices of Toda Type via Critical Point Theory . . . . . 369

SRIKANTH, P. N., see RUF, B. . . . . 369

VON WAHL, W., Necessary and Sufficient Conditions for the Stability of Flows of Incompressible Viscous Fluids . . . . . 103

WANG, C. C., Reductions due to Material Constraint and Material Symmetry on Equilibrium Problems of Laminated and Fibrillar Bodies . . . . . 131
